- W Clayton compiled a spread sheet of all the plots to assist easy identification of uncultivated plots needing warning letters. Ron said that the Association were in possession of an official 7 point tick sheet to assist rent collectors in identifying such plots and that this was up for discussion at the next Association meeting.

A.O.B:

- Plotholders with plots adjoining the school site are now free to erect their sheds next to the school boundary.
- Ray Gutteridge raised a problem concerning verbal harassment from a plotholder concerning allocation of vacant plots. Should this not cease immediately, the plotholder will be asked to vacate his plot within 7 days. The role of rent collector carries with it the authority to issue notice to quit.
